

DESIGNED BY EMOTION

AEROSYSTEM ONE®: A SOUND-SYSTEM FOR THE FUTURE, BY JARRE TECHNOLOGIES®

Jarre Technologies® is a cutting-edge brand for technological Lifestyle, home-entertainment products, embodying contemporary style, simplicity and optimal performance. It's range of high-end, affordable products is dedicated to restoring emotion in how we experience sound and vision in the comfort of our interiors.

Jean Michel Jarre is renowned in his successful career for having broken new ground in music and concert performance: with Jarre Technologies®, a new page in experiencing and sharing home-entertainment is un-folding.

AEROSYSTEM ONE® IS JARRE'S IDEAL SOUND-SYSTEM

Driven by the continuous regression in the quality of our consuming of music, Jarre devised AeroSystem One® with the aim to retrieve and restore the lost sound that has been so meticulously produced in state-of-the-art recording studios: it is time for home-entertainment to be true to the genesis of the initial emotion created by the musicians in the studio.

AeroSystem One® is the result of four years research and development by Jean Michel Jarre and his team of sound engineers. Conceptualised in France, this powerful sound-system can accept all digital formats, from MP3, AAC, WMA, etc. AeroSystem One® is compatible with all iPod and iPhone models and comes with an integrated USB 2.0 port, as well as a mini-jack port offering the possibility to connect the system to a laptop, a CD / DVD player, smartphones, hard-disk files, as well as a vinyl turn-table. AeroSystem One® incorporates an electronic signal circuit, tailor-made to reproduce both the bass line and high notes with optimal precision.

AeroSystem One® delivers a precise and enveloping sound thanks to its powerful box beam and two directional speakers.

The ultimately elegant design of the AeroSystem One®, perfectly integrates into any interior, with its aesthetic ambition while privileging optimum audio quality, all at a most affordable price: a sound-system that appeals both to design and music-lovers.

Suggested retail price: 799 euros incl. VAT.
AeroSystem One® is available from September 2010.
